Filipino (Native)

English (Professional working proficiency)

PROFILE

BSIT graduate with hands-on experience in web development, database management, and office productivity tools, built through a government internship and a team-based capstone project. Comfortable working across technical tasks (PHP, MySQL, systems troubleshooting) and administrative tasks (MS Office, data encoding, records handling). Adaptable team player looking to contribute in web development, IT/technical support, or administrative support roles.

EXPERIENCE

Full-Stack Developer

Academic Capstone Project – Municipal Social Welfare & Development Management System

Team of 4 | 2025 – 2026

- Built as full-stack contributor on a 4-person team, developing frontend interfaces and backend logic in native PHP for the Municipal Social Welfare and Development Office.
- Designed and implemented a MySQL database schema supporting beneficiary management, application processing, and reporting modules.
- Integrated Chart.js to visualize report data for program monitoring.

Backend Developer Intern

Local Government Unit – Municipality of Gabaldon

January 2026 – April 2026

- Served as backend developer on a 4-person team building a Municipal Budget Management System for internal government use.
- Built database-driven backend functionality in PHP and MySQL to support budget tracking and reporting workflows.
- Owned testing and debugging of backend features, resolving functional issues before handoff.

CERTIFICATIONS

Pre-Employment Orientation Seminar (PEOS) Certificate

AWARDS

Certificate of Recognition – Excellence in System Development

Dean's Lister – Four consecutive semesters (3rd & 4th Year)
